Recording Controller

Description

The new fully automatic eight-position audio and video recording equipment adopts integrated hardware design, embedded Linux operating system, highly integrated UHD video acquisition module, recording module, live broadcast module, guide switching module, image segmentation and splicing module, and local echo output module to realize multiple functions such as live video broadcast, intelligent guide, ultra-high-definition recording, image recognition tracking, and multi-party interaction, meeting the needs of conference recording, training and learning, interactive teaching, etc.

2-channel HDMI audio input interface Audio output interface 1-channel 3.5mm audio output interface, 2-channel	
Audio output interface 1-channel 3.5mm audio output interface, 2-channel	Phoenix terminal input interface,
2-channel HDMI audio output interface	el Phoenix terminal output interface,
Network port 1 Gigabit network interface, 1 optical fiber network	port
USB interface 4 USB 2.0 interfaces, 1 USB 3.0 interface, support	mouse/U disk/director switcher/keyboard
Control port 3 RS-232 interfaces, 1 RS-485 interface	
Panel button 1×switch button, 4×function button	
Software reset function Support restoring factory settings	
Indicator light 3×LED indicators, system operation, hard disk fail	ure and recording prompt lights
Storage 2TB	
Power supply DC 24V/3A	
Power consumption 45W	
Weight 3.5kg	
Size (L*D*H) 482.6×258.2×45mm	
Operating temperature -10°C-55°C (ambient temperature under well-vention	
Operating humidity 20%~80% relative humidity, no condensation	lated conditions)
