Ceiling cut-out

Music-grade ceiling sound. Sealed for open ceilings.

The SK-606TKS pairs a 6" woofer with a 1" tweeter for full, detailed music. Its closed back can protects the driver and stops sound leaking into the ceiling void, so it suits open or acoustic ceilings. Taps at 70 V or 100 V, or 8 Ω direct, let it run on a PA line or a low-impedance amplifier.

Two-way sound
6" PP woofer and 1" Mylar tweeter for full-range music.

Four taps
30 / 15 / 7.5 / 3.8 W at 70 V or 100 V, plus 8 Ω.

Back can
Closed enclosure for open ceilings and better bass.

Robust build
ABS housing with a powder-coated metal grille.

Background music
For restaurants, bars, lobbies and conference rooms.

PA or low-Z
Runs on a 100 V line or straight from an 8 Ω amplifier.
