COMMERCIAL PA · TIMER AND MATRIX

T-6600

16-zone timer with 8 × 16 matrix and MP3

A 16-zone controller with a weekly timer, an 8 × 16 audio matrix and an MP3 player, for school bells, scheduled messages and zoned music.

16 zones | 8 × 16 matrix | Weekly timer | MP3

16	8 × 16	200	6
Zones	Audio matrix	Steps per day	Power sequencer outlets

Bells, music and paging. On schedule, zone by zone.

The T-6600 runs a school or campus PA on a timetable. Its weekly timer plays bells and scheduled programmes, an 8-input, 16-output matrix sends sources to any zone, and a built-in MP3 player provides music and messages. Remote paging consoles page single zones, groups or all-call without interrupting music in other zones.

Weekly timer
Scheduled bells and programmes, up to 200 steps a day.

8 × 16 matrix
Four programme sources plus MP3 to 16 zones.

16-zone selector
Zone, group and all-call paging from remote consoles.

MP3 player
SD card playback with random and repeat modes.

Power sequencer
Built-in 6-channel sequencer switches amplifiers in order.

Priorities
Emergency and MIC 1 inputs override music and paging.

APPLICATIONS

Schools | Campuses | Factories | Hospitals | Office parks | Malls

Skyco Technologies (Pty) Ltd · 151 Lechwe Street, Corporate Park South, Randjespark, Midrand
