COMMERCIAL PA · SIGNAL DISTRIBUTOR

TS-205

Stereo signal distributor

A signal distributor that splits one source to many amplifiers: stereo one-in, six-out per channel, or mono one-in, twelve-out.

Stereo or mono | 1 in · 6 out (stereo) | 1 in · 12 out (mono) | Rack mount

Rack
Mounting

One source, many amplifiers. Clean signal splitting.

The TS-205 sits between a pre-amplifier and a bank of power amplifiers. It splits a stereo programme into six outputs per channel, or a mono programme into twelve, with high fidelity, low distortion and a high signal-to-noise ratio, so every zone amplifier gets the same clean feed.

Signal splitting
One input to up to 12 outputs.

Stereo or mono
Two channels of six, or one channel of twelve.

Clean signal
High fidelity, low distortion and high SNR.

Feeds power amps
For pre-amp and power amplifier systems.

Rack mount
Fits the system rack.

Many zones
One programme to many zone amplifiers.

APPLICATIONS

Warehouses | Campuses | Stadiums | Malls | Factories | Transport hubs

Specifications. Every input, output and rating.

CONFIGURATION

Stereo mode	2 channels, 1 input and 6 outputs each
Mono mode	1 input, 12 outputs
Performance	High fidelity, low distortion, high SNR

WORKS WITH

Pre-amplifier	T-1S01
Power amplifiers	T-1240DS, T-1500DS, T-1650DS

MANUFACTURER

Brand	ITC
